Recent updates to nearly every inch of the home mean you can move right in. Start the morning with coffee on the covered front porch or spend the afternoon on the back deck. The family room stretches more than 25 feet, with room for a generous seating area and space for a dining table, a game table or extra seating. Enjoy cooking with expansive counter space.The eat-in kitchen creates an inviting spot for everyday meals. The primary bedroom has its own bath, walk-in closet and access to the rear deck. A detached storage room out back would make a great home office. Enjoy the trails at nearby Lake Johnson, with easy access to Western Boulevard, NC State and the rest of the Triangle. Hop on the 440 Beltline in minutes and walk to Combs Elementary.
