We have an archival record (digital-only and from an old software import) of a storage shed with electricity being permitted and then finaled on 7/21/2017.

It's listed as a storage shed on our limited records.

Thanks,

Hi! Are you able to search to see if you have any permitting for a 20x16-ish detached shop for 1200 E. Middleton Drive,

Creedmoor? Wallace Peiffer will be listing it and is questioning if it was permitted because of it's use. It's listed on the tax card as a storage shed.

Thanks!
