> AREAS PRONE TO INFESTATION:

This is **NOT A WOOD DAMAGE REPORT**. If there is concern by interested parties as to the possible structural damage we strongly recommend consultation with a qualified building tradesman. This report does not constitute a warranty against the presence of any wood-destroying insects, or their damage since the presence of these insects may be impossible to detect at any time of the inspection with reasonably available inspection methods. **DAMAGE AS DESCRIBED.**

MOLD DISCLAIMER: There may be health related issues associated with the work being performed under the terms of this agreement. These health issues include, but are not limited to, the possible release of mold spores during the course of work. We are not qualified to and do not render any opinion concerning such health issues or any special precautions. Any questions concerning health issues or any special precautions to be taken prior to or during the course of such work should be directed to a qualified professional before work begins.
