Good Afternoon,
I received the request for 136 Dixie Ln. As you stated, it looks as though this property was established in 1988. Our expired permits only go back as far as 2005. I have attempted to find any permits that were applied for by the names, Desiree or Paul Voight and Rachel or Sean Oneill. There are not any permits on file under those names. I am not sure if the builder may have applied or the septic installer. Without the name of who may have applied, I am not having any luck. Sorry that I could not be of more assistance.
