ADDRESS: 352 Leonard Rd

EMAIL: _____

SAMPLE LOCATION: _____

PROPERTY OWNER: _____

WATER SOURCE: DRILLED WELL _____ BORED WELL _____ OTHER _____

SAMPLING POINT: _____ INSIDE TAP _____ OUTSIDE TAP _____ WELL TAP _____ OTHER _____

COLLECTED BY Dawn Davis

DATE 6/18/25

TIME 11:42 ^{am} _{pm}

Contaminant

Present

Absent

TOTAL COLIFORM

✓

FECAL/E. COLI

RESULTS REPORTED BY

Meeps

DATE

6-20-25

NOTE

Water samples should not be taken from an open well or unprotected spring or from any supply where there is any visible evidence of possible contamination. Water from such sources is unsafe, regardless of laboratory findings. If coliform bacteria are present the water is considered unsafe for drinking purposes. If coliform bacteria are absent, the water is considered safe for drinking purposes. It must be remembered, however, that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply. Also, if coliform bacteria are absent there is no guarantee that this water supply will remain potable.
