Good Afternoon!

I received the request for well and septic on this parcel. As you stated, the property looks as though it was established in 1997. Our records only go back as far as 2005. Well permits were not required in Franklin County until 2008 so that one will not be there and I am not seeing where any repair permits or existing system checks have been applied for either well or septic since their initial installation. I am sorry that I could not be of more assistance, Thank you!
