Window Depot of Raleigh will ensure cleanliness and professional installation at every jobsite. However, we are not responsible for the removal and reinstallation of blinds, blind brackets, and curtains. We are also not responsible for moving any outdoor or indoor furniture and cutting back any shrubbery to access the windows. Please move furniture and cut back shrubbery a few feet to allow enough room for your installer. We also recommend the removal of delicate, hanging wall decor by the windows/doors. If we arrive at a scheduled installation with blinds on the windows, furniture to move, etc., you will be subject to a charge.

Note: The charge does not apply, if your contract states handling of a specific item is included. Thank you for your cooperation!

G8 Trim Coil Wrap

Included with your window installation, Window Depot will wrap the windows to be replaced with G8 aluminum trim coil on all four sides of the window: brickmould and sill/nose.
 **Please note we can ONLY wrap windows with right angles, and that any shaped windows cannot be wrapped. The alternative for shaped windows is to add on an additional charge to replace the trim with a custom pvc brickmould. This would be a separate line item added on, if you would like the shaped window(s) trim addressed.
