

Annalee Drive

We have so enjoyed living in this house over the last 7 years and have poured a lot of love into completely renovating the exterior of the property to give it a refreshed modern finish. The garden was a blank canvas with some lovely mature trees, but we have enjoyed adding raised beds for growing our own food, peach and plum trees, dogwoods, Japanese maples and more. Our favorite spot in the house is the sunny open plan dining/kitchen area. The big picture window's let the light stream in. It's a lovely spot for a morning coffee and watching the birds at the feeders.

The house is located in a quiet spot, with a park and pool at the end of the street. However, our favourite coffee shops, restaurants and bars in Mordecai and Oakwood are just a few minutes' drive away.

This is a great house, lovingly improved, with tons of potential to put your own mark on it and enjoy the next chapter.
