Re: Community Meeting Regarding Proposed Galaxi Towers Wireless Telecommunications Facility
New Providence Baptist Church
4813 Hilltop Needmore Rd, Fuquay Varina NC

Dear Neighbor,

Kendall Communications, on behalf of Galaxi Towers (also known as Alpha Towers PropCo) and New Providence Baptist Church, invites you to attend a community meeting to discuss a proposed wireless telecommunications facility. The meeting will be held at New Providence Baptist Church at **5:30 PM on June 18, 2026**, located at **4813 Hilltop Needmore Rd, Fuquay-Varina NC**

In accordance with Fuquay-Varina Zoning Regulations, applicants seeking Special Use approval for a new wireless facility are required to hold a community meeting prior to the scheduled Board of Adjustment hearing. The related Board of Adjustment meeting has not been scheduled yet.

The proposed facility would be located in the south central section of the church property and will feature a monopole tower. This facility will support critical wireless infrastructure by improving coverage and network capacity within the area. Additional details regarding the project will be presented during the meeting, and attendees will have the opportunity to ask questions.

We appreciate your time and interest and encourage your participation in this meeting.

Sincerely,

Scott Steeno
