

NeuWave Info for Roanoke Row

Neuwave Systems is proud to partner with the builder to provide the technology infrastructure that serves as the foundation for today's connected home. Each home is pre-wired to support a dedicated whole-home Wi-Fi network, streaming television, distributed audio throughout the main living areas, and a professionally installed wired security system with surveillance capabilities utilizing the latest home security technology.

Beyond the included infrastructure, our team works directly with each homeowner to design a customized technology solution tailored to their lifestyle and preferences. Whether you're looking for enhanced audio and video entertainment, advanced security, enterprise-grade networking, whole-home automation, motorized shades, or intelligent lighting control, Neuwave Systems can create a seamless, easy-to-use smart home experience that is both elegant and reliable. Our goal is to ensure every homeowner receives a personalized solution that not only meets their needs today but is designed to grow with them in the future.
