

Builder's Layout of 3405 Sparrowwood Drive

The Seller does not have an actual survey of 3405 Sparrowwood Drive as he built the house as new construction with his builder.

What follows is a preliminary map of the proposed build. It's not exact as an "as built" survey would be...but it is pretty close to show the house on the lot. The lot lines, coordinates, etc. are accurate. Standing in the center of the cul-de-sac the left lot line is basically the electrical box and the right line is the cable box.
