

Hello visitors!

Welcome to 102 Stenness Court. Be warned. When you buy this home, you're automatically enrolled into the Stenness Court network of friendly neighbors. Everybody on Stenness is nice! We've trusted them with our kids, our pets, our stuff. You'll find everybody wants to help everybody.

As for the house, it's incredible. Inside and outside. From the design features to the diverse foliage. There aren't many like this one. Everything is turn-key and ready to go.

So why are we moving? Home is calling us. We're originally from Indiana. In 2016 my wife Kate and I moved to North Carolina for my work. Very quickly, she started teaching at Apex High School where she remained for a decade. Since moving here, we've gotten married, had two children, and eaten everything the Triangle has to offer. Now, with our daughter about to start kindergarten and our son just turning 3, it's time for our family to make memories WITH family.

Memories are everything. This house holds many. Before us, a family of four spent two joyful decades in this home. Love, laughter, and growth is the staple diet within these walls. We hope you feel that energy as you walk around, and we're so excited for you to add your own chapter to this home's incredible legacy.

All the best,

Bryan and Kate
