SCOPE:

SATISFIED:

This Certificate of Completion serves as certification that the well has been inspected and found to comply with applicable state and county regulations, that all conditions for siting and construction of the well as prescribed by the construction authorization have been met, and that a water sample from the well is in compliance with applicable water quality standards in effect at the time of construction. The testing required under the construction authorization does not include all possible contaminants. Continued monitoring of private wells and testing for contaminants other than those required for the certificate of completion or certificate of occupancy is the responsibility of the homeowner. Neither Wake County nor the Environmental Health Specialist warrants the quantity or quality of water produced by this well.
