

## “Coming Soon” Rules

- The listing may be moved to Active before midnight on the 30th day while in the “Coming Soon” status. If not moved by the Listing Broker, the MLS will automatically update the status to “Active” and make it available for showings.
- Advertisement through Doorify MLS will be through both IDX (Broker websites, apps, etc.) and syndication data feeds (non-broker websites, apps, etc.).
- Coming Soon listings accrue days on market due to how they are marketed through the MLS.

**This form MUST be uploaded to the listing within two business days of MLS entry. Make sure to select “HAS EDIT” for document level security permissions.**
