Comments : Today I talked with the client about shutters.

Client chose:

- White color as chosen from swatch held on trim
- 3.5" louver
- Invisible tilts (no vertical center rods)
- Outside mount on the trim as shown
- No divider rails (horizontal rail in middle of panel)
- 1 divider rail on door shutter due to height
- Back door lever needs to be flipped

We talked about louver size, color, frame size and mounting location. We demonstrated this by showing component sample sections on the window for confirmations as well as looking at photos to show similar designs.

We talked about louver invisible tilts versus a traditional tilt rod.

We talked about the number of panels per window and their swing clearance and directions.
