PIPELINES TO SECTIONS 802(a), 803(a), & 804(a), AND EARLY IDENTIFICATION OF CHILDREN AT RISK OF ABUSE. The following are the key provisions of the new law:

- **Section 802(a).** The new law requires that the Department of Health and Human Services (HHS) develop a model for the states to use in identifying children at risk of abuse. The model must be based on the best available evidence and must be developed in consultation with the states.
- **Section 803(a).** The new law requires that the Department of Health and Human Services (HHS) develop a model for the states to use in identifying children at risk of abuse. The model must be based on the best available evidence and must be developed in consultation with the states.
- **Section 804(a).** The new law requires that the Department of Health and Human Services (HHS) develop a model for the states to use in identifying children at risk of abuse. The model must be based on the best available evidence and must be developed in consultation with the states.
