Attic insulation.

Item	Quantity	Price	Total
Removal of insulation Detach existing boards to then remove old blown insulation and take it to safety disposal	1	600.00	600.00
Installation of new blown in insulation Install attic insulation rulers to determine how much insulation we will need(R-38, 13"-14"), installation of the insulation. The type of insulation being used will be L77 blowing wool fiberglass. Install attic insulated door cover to prevent insulation falling when open door and heat transfer to the inside of th house. Also, install buffles rafters to help transfer outside fresh air and prevent block them	600	1.45	870.00
Radiant barrier installation. Installation of radiant barrier in attic to heat control. Install this with staples and leave gaps on bottom and top for air moving.	1	400.00	400.00
Total			\$1,870.00
