HOMEOWNER INTERVIEW

What have you enjoyed the most about living here?

We love the quiet cul-de-sac without through traffic. We love the super close access to the greenway and privacy and peaceful vibes of the woods. We made it a wonderful home for our family with lush gardens and hand-out spots. It is perfect for BBQs and holidays.

What's your favorite room and why?

My favorite room is the kitchen. We built the island during Covid (our island adventure), and I have made so many meals and treats there to feed and entertain the masses. It is the gathering place for everyone, and you are still in the action of the living room.

What features of the home have been most useful or convenient?

The Greenway access down the street is amazing. Also having a larger lot with the wood barrier makes it feel private. There is enough super close to get most supplies and easy access to the major highways as well. It's a great area!

What is the home like in different seasons?

The spring and summer are LUSH with gardens! Butterflies everywhere! The fan on the pergola with the shade keeps it cooler in the summer heat. The winter greenway walks were my favorite. It was so crisp and peaceful. I love watching the seasons change the gardens.

How would you describe the community?

This part of the community is quieter. The people around the house have quiet but friendly lives and families. I felt like we looked out for each other, but out of everyone's way. It is a nice balance of peace and safety. There are smaller kids on the next street over riding their bikes and laughing. There is life which is lovely, but it's not loud.

What are your favorite nearby spots?

The Greenway, as I keep referencing. But I go to the Food Lion/CVS area a lot! Many food options, Lee Nails, and many stores just up the road. It is growing leaps and bounds, so I'm sure many more things are coming in there as well. I love the Food Lion staff! They are so nice and helpful. Really almost everyone around is really friendly and it's a nice place to make your home!
