A covered patio and a generous side yard

Set the table under the covered patio, fire up the grill on its own pad, and enjoy a lawn with room for a game of catch.

Inside the home

3 bedrooms • 2 full baths and 1 half bath

Granite counters frame a kitchen that opens to the great room, where tall windows and a cathedral ceiling draw light across the freshly painted interior. The gas fireplace anchors the seating area.

The main-floor primary suite pairs a tiled shower with a separate soaking tub. Upstairs, two bedrooms share a loft overlooking the great room, with space for a desk or reading chair.

Custom storage, room by room

Primary bedroom closet

A customized walk-in keeps everyday clothes and seasonal pieces together in the main-floor suite.

Second bedroom closet

Custom storage gives clothes, shoes, and accessories a place of their own.

Kitchen pantry

Custom pantry storage makes it easy to see what's on hand when planning the week's meals.

Garage storage loft

An overhead loft keeps holiday decorations and outdoor gear tucked away above the garage floor.
